

- Adapté aux applications à haute pression
- Installation polyvalente
- Équilibrage hydraulique précis
- Construction durable
- Flexibilité esthétique

Description

Integra HP est un radiateur panneau classique intégré à raccordement universel équipé d'un système de canne intégrée et de 6 connexions. Cette

configuration permet à la fois un raccordement élégant à travers une alimentation en bas avec la tête thermostatique à droite ainsi qu'un raccordement classique à travers les 4 orifices latéraux. Avec une pression de service de 10 bars, il peut être intégré dans les installations à haute pression telles que pour

les immeubles de grande hauteur ou pour les raccordements au réseau de chauffage urbain.

Les inserts thermostatiques à la fois colorés et préréglés facilitent l'équilibrage hydraulique. Chaque couleur représente la valeur Kv en fonction du débit d'eau nécessaire pour atteindre la puissance thermique requise et aussi pour assurer un bon équilibrage hydraulique. Si une adaptation est nécessaire, il est possible de modifier le réglage de manière simple et rapide. Les nouvelles consoles de fixation MCW-7, qui conviennent à l'installation de l'Integra HP équipé de pattes de fixation, bénéficient d'un système d'anti-soulèvement. Celui-ci permet un montage et positionnement plus sûr au mur et protège contre toute possibilité de glissement latéral. Une version réversible pour les modèles 21 s, 22 sans pattes de fixation, est disponible sur simple demande.

Intégrra HP est disponible dans la couleur standard RAL 9016.

D'autres couleurs sont disponibles sur demande. Pour les radiateurs de couleurs spéciales, les accessoires tels que le purgeur d'air, le bouchon et le clip décoratif sont disponibles en argent RAL 9006 pour un aspect moderne et plus esthétique. Une grille supérieure qualitative et deux joues latérales soignées sont pré-montés en usine.

Domaine d'application

L'Integra HP est idéale pour les installations haute pression comme les immeubles de grande hauteur ou les raccordements aux réseaux de chauffage urbain. Avec une pression de service maximale de 10 bars et une limite de température de 110°C, elle supporte des raccordements polyvalents, y compris inférieurs et latéraux. Un équilibrage hydraulique amélioré avec des inserts thermostatiques préréglés assure l'efficacité.

Critères de sélection

Pour la sélection de produits, utilisez notre service de conception, ou pour une sélection rapide, consultez notre brochure.

Instructions de base pour l'utilisateur

Integra HP est universellement connectable avec des options de Raccordement inférieure et latérale. Utilisez l'insert thermostatique intégré pour un équilibrage hydraulique facile. Fixez-le aux murs à l'aide du support de montage MCW-7. Maintenez une pression de fonctionnement maximale de 10 bars et une température de 110°C. Utilisez l'emballage pour la protection lors de l'installation et retirez-le avant le premier chauffage. Suivez attentivement le guide d'installation inclus.

Spécifications du Texte de Prescription

Intégrra HP est un radiateur panneau classique intégré à raccordement universel équipé d'un système de canne intégrée et de 6 Raccordements. Cette

configuration permet à la fois un raccordement élégant à travers une alimentation en bas avec la tête thermostatique à droite ainsi qu'un raccordement classique à travers les 4 orifices latéraux. Avec une pression de service de 10 bars, il peut être intégré dans les installations à haute pression telles que pour

les immeubles de grande hauteur ou pour les raccordements au réseau de chauffage urbain.

Les inserts thermostatiques à la fois colorés et préréglés facilitent l'équilibrage hydraulique. Chaque couleur représente la valeur Kv en fonction du débit d'eau nécessaire pour atteindre la puissance thermique requise et aussi pour assurer un bon équilibrage hydraulique. Si une adaptation est nécessaire, il est possible de modifier le réglage de manière simple et rapide. Les nouvelles consoles de fixation MCW-7, qui conviennent à l'installation de l'Integra HP équipé de pattes de fixation, bénéficient d'un système d'anti-soulèvement. Celui-ci permet un montage et positionnement plus sûr au mur et protège contre toute possibilité de glissement latéral. Une version réversible pour les modèles 21 s, 22 sans pattes de fixation, est disponible sur simple demande.

Intégrra HP est disponible dans la couleur standard RAL 9016.
