- Versatile Application

Description

The Aquilo Top Cover is designed to provide comprehensive protection for underfloor convectors used in residential and commercial heating and cooling systems. Manufactured from high-quality materials, it ensures durability and excellent performance over time. Its installation is straightforward, requiring minimal maintenance to keep it in top condition. This product is essential for protecting internal components and improving the overall safety of the system.

Area of Application

Aquilo Top Cover is ideal for installation in residential buildings, commercial spaces, offices, and healthcare facilities. It can be used in settings requiring floor convectors for heating and cooling systems. Designed for robustness and long-lasting performance.

Selection Criteria

For selecting the appropriate Aquilo Top Cover, use our design service. For quick selection, use our brochure.

Basic User Instructions

Ensure the floor surface is flat and free of obstructions before installation. Position the Aquilo Top Cover over the convector and secure it firmly. Regularly clean the cover to maintain optimal performance and appearance. In case of damage, contact a professional for repairs.

Prescription text specifiers

The Aquilo Top Cover is a robust, durable cover designed for use with underfloor convectors in residential and commercial heating and cooling systems. It features easy installation and low maintenance, enhancing safety by protecting internal components. Ideal for diverse environments, including homes, offices, and healthcare facilities, the cover is available in various sizes to meet specific installation requirements. For optimum performance, regularly clean the cover and inspect it for any damage. Essential for maintaining the efficiency and safety of your convector systems.
