Encoiler

Romania - Purmo

- Reduces installation time
- Versatile compatibility
- Improves safety
- Portable and collapsible
- Sturdy design

Description

The Encoiler is designed for easy handling and organized unwinding of heating pipe reels. Its sturdy construction holds reels of up to 600 meters, allowing for smooth, tangle-free dispensing. Ideal for large underfloor heating projects and complex installations, it significantly reduces installation time and effort. Portable and collapsible for convenient storage and transport.

Area of Application

Encoiler is suitable for use with heating pipe reels of 120, 240, and 600 meters in length. Ideal for work sites requiring organized and tangle-free dispensing of pipe coils. Can be employed in underfloor heating systems, residential and commercial heating installations, and in industrial settings requiring flexible pipe layouts.

Selection Criteria

Select based on the pipe reel size and the specific requirements of the heating system installation. Always consider the compatibility with reel dimensions.

Basic User Instructions

To use the Encoiler, unfold the frame and ensure it is stable on a flat surface. Place the pipe reel onto the designated reel holder and secure it. Pull the pipe gently while guiding it to prevent tangling. Adjust the tension as needed to ensure smooth feeding. When finished, remove the reel and fold the Encoiler for storage.

Prescription text specifiers

The Encoiler is a collapsible device designed for the efficient and safe dispensing of heating pipes in various installation settings. It accommodates pipe reels of 120, 240, and 600 meters, ensuring smooth, tangle-free operation. Suitable for use in residential, commercial, and industrial environments, it enhances productivity by preventing tangling and reducing installation time. The Encoiler is constructed with durability in mind, providing reliable performance on site and easy transport and storage when not in use. Ideal for large-scale underfloor heating projects and complex system layouts.

Warranty

Purmo radiators are warranted for a period of 10 years* from date of purchase against all manufacturing defects when they are used in normal conditions and for a heating system with hot water. The warranty does not apply to defects caused by installation or handling errors, misuse or factors external to the radiators, such as water quality or oxygen-permeable pipes.

Underfloor heating products and piping systems elements are warranted for a period of 10 years**.

* 6 years for galvanized radiators and 2 years for all electronic and electric components and spare parts sold separately (side covers, top grilles, plastic clips, plugs, air vents, fixing parts)

** 30 years for PexPenta pipes

Specification

Feature	Unit	Value
Etim Class		EC010381 - Accessories/spare parts for floor heating
Item depth	Millimetre (mm)	380
Item weight	Kilogram (kg)	9.3, 9.5
Item height	Millimetre (mm)	580
Item width	Millimetre (mm)	150
Type of accessory/spare part		Other
Accessory		Yes
Spare part		Yes
