Panel Radiators

Plan Ventil Hygiene

Romania - Purmo

- Hygienic Design
- Durable Construction
- High Operating Pressure
- Versatile Sizing
- Easy Installation

Description

The Plan Ventil Hygiene radiator meets the high standards required in sensitive hygiene areas such as hospitals and cleanrooms. The absence of convection fins, side panels, and top grills ensures it can be cleaned thoroughly and easily. Constructed from high-quality cold-rolled steel and finished with a durable epoxy-polyester coating, this radiator offers robustness and longevity. Available in various sizes, it fits seamlessly into different spaces while providing reliable heating performance.

Area of Application

Plan Ventil Hygiene is suitable for use in environments with stringent hygiene requirements such as hospitals, laboratories, and cleanrooms. Key technical highlights include its construction from cold-rolled steel, operating pressure of up to 10 bar, sizes ranging from 300mm to 3000mm, lack of convection fins, and its easy-clean design without top grills and side panels.

Selection Criteria

For selecting the Plan Ventil Hygiene radiator, consider your specific environment's hygiene needs, size requirements, and heating load. For detailed guidance, use our design service or refer to our brochure.

Basic User Instructions

Ensure that the Plan Ventil Hygiene radiator is installed using the provided mounting brackets appropriate for the size of the unit. All connections should be secure to prevent leaks, respecting the operating limits. Regularly clean the smooth surface and edges using a non-abrasive cloth to maintain hygiene standards. Avoid harsh cleaners that may damage the finish. Check for any blockages and ensure the area around the radiator is clear for maximum efficiency.

Prescription text specifiers

The Plan Ventil Hygiene radiator is designed for high-hygiene environments such as hospitals and cleanrooms. Constructed from cold-rolled steel, it is available in various sizes ranging from 300mm to 3000mm. It features a smooth surface without convection fins, side panels, or top grills to facilitate thorough cleaning. The radiator operates efficiently at pressures up to 10 bar, adhering to stringent hygiene standards. The epoxy-polyester coating ensures durability and resistance to cleaning agents. Installation is straightforward with included mounting brackets, making it a versatile and reliable heating solution for critical environments.
