Description

Myson Ferlo is a premium, curved multirail towel radiator that adds a touch of luxury to any bathroom. Our modern ladder towel radiators are simple, elegant and practical and are designed to achieve the perfect combination of practical towel placement, stylish design and radiant heat output. With its classic design, the Ferlo towel radiator makes a great choice for any project. Ladder rails have become a modern requirement for any bathroom, and we have an extensive range to suit every need. Suitable for hydronic systems (chrome option also suitable for direct system).

Area of Application

The Ferlo towel radiator is ideal for bathrooms where both functionality and design are priority. Suitable for hot water systems, it can be paired with underfloor heating. There's an option to fit a Dual Fuel Heater Kit, expanding its use even when central heating is off.

Selection Criteria

Large range of sizes and heat outputs available, in Chrome. Available as a curved model only.

Basic User Instructions

Install the Ferlo towel radiator with Radiator or Thermostatic Radiator Valves to control room temperature. An MHK Dual Fuel Heater Kit can be added for operation during warmer months without requiring the entire heating system. Ensure that wall brackets, air vent, and plug are properly installed to secure the unit.

Prescription text specifiers

The Ferlo towel radiator is a curved multirail towel warmer made from steel for white models and brass for chrome models. It is ideal for hot water systems and can be paired with underfloor heating. The unit supports a dual fuel heater kit for increased usage flexibility. Standard connections include 2 x ½" BSP, with integrated air vents. The working pressure is up to 7.4 bar for white and 5.3 bar for chrome models. Certified to BS EN 442 and carrying the CE & UKCA Mark, the Ferlo offers a stylish, practical heating solution with a variety of sizes and finishes to fit any design scheme.
